MATERIALS

FRAME

COATED ALUMINUM

Aluminium is a non-ferrous metal, which combines great mechanical rigidity with light weight; this makes it especially suitable for making furniture. If treated correctly it has a good resistance to corrosion. One of the treatments is powder coating. After a chemical pre-treatment an epoxy powder is applied statically and baked.

	COATED ALUMINUM - WHITE
	COATED ALUMINUM - SAND
	COATED ALUMINUM - BLACK

SEAT

BATYLINE®

A woven polyester fibre protected by a PVC coating. This coating guarantees exceptional resistance to climatic conditions and UV exposure. The fact that there is no moisture absorption results in quick-drying action, little sensitivity to staining, and simplicity in cleaning.

	WHITE
	PEARL GREY
	BLACK

CHARACTERISTICS

- ✓ Stackable
- ✓ Optional cushions
- ✓ Optional teak armrest
